

Vacuum Filter Applicator System

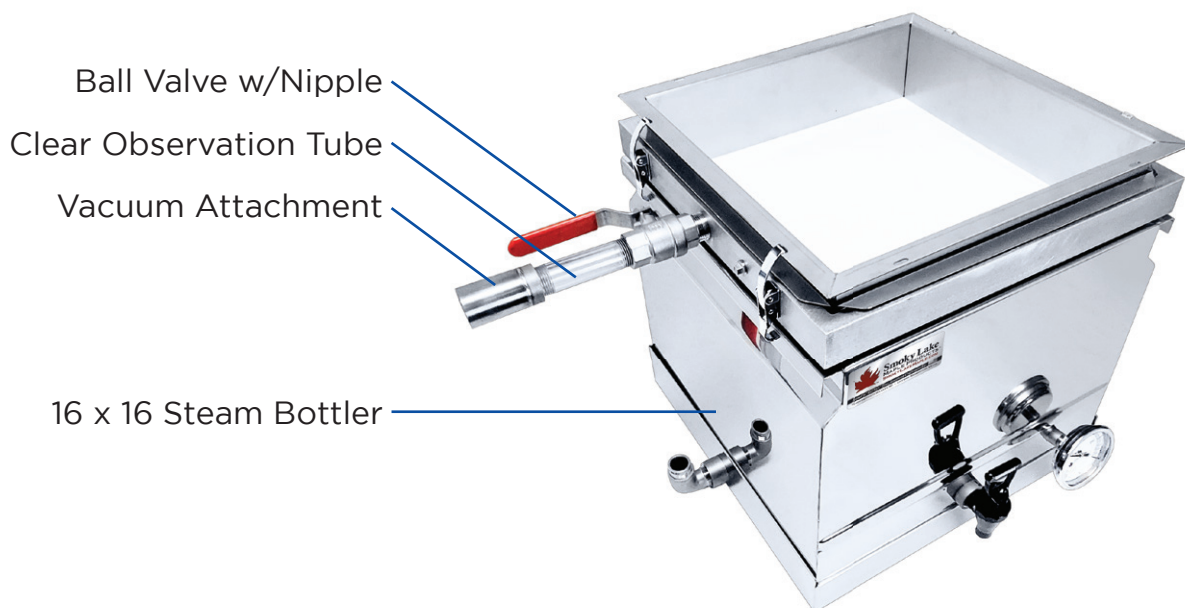

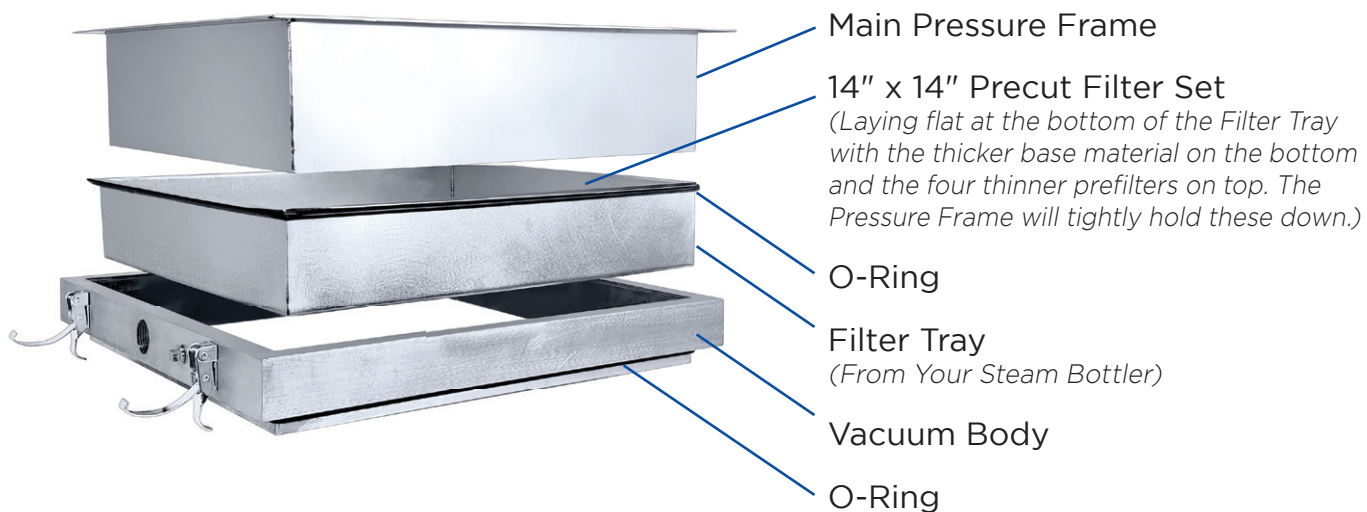

This system is an optional add-on for the 16" x 16" Smoky Lake Steam Bottler, allowing you to convert the traditional gravity filter into a vacuum filter for more efficient filtration of maple syrup.

THIS KIT INCLUDES

- Machined Vacuum Body
(Designed To Fit The 16" x 16" Smoky Lake Steam Bottler)
- Main Pressure Frame
- Tension Clasps
- Valve W/Nipple (Throttle)
- Transparent Observation Tube
- Vacuum Connection
- 1/4" Plug
(The Outlet Is Compatible With An Optional Vacuum Gauge If So Desired. Vacuum Gauges Are Not Supplied By Smoky Lake At This Time. See videos on next page.)
- O-Ring Gaskets — Qty 2
- 14" x 14" Filter Set

ASSEMBLY

VIDEOS:

Much much faster than
the old gravity method...
I give this thing a thumbs up.
